Open Doors International is looking for a

CLOUD & SECURITY ENGINEER

0.8 - 1.0 FTE, Permanent

NOVEMBER 2026

HELP KEEP OUR GLOBAL CLOUD SERVICES SECURE, RESILIENT AND AVAILABLE.

We are looking for an experienced Cloud & Security Engineer to strengthen and secure the Azure and Microsoft 365 platforms that support our global ministry.

This hands-on role will design, deploy and manage cloud infrastructure, improve our security posture and help ensure that critical technology services remain reliable and available. You will provide technical expertise, collaborating with developers and stakeholders, and use automation to improve efficiency and consistency.

Working as part of the Infrastructure Team within ODI-IT, you will collaborate closely with IT Security and colleagues across the worldwide organisation. You will also help identify, investigate, contain and recover from security incidents, with significant overlap required with European business hours.

WHAT YOU'LL BE DOING

- Lead the design, deployment, maintenance and backup of Microsoft Azure and Microsoft 365 environments.
- Provide expert cloud infrastructure guidance to developers, IT colleagues and stakeholders across Open Doors.
- Identify and remediate security vulnerabilities, strengthening our global Azure and Microsoft 365 security posture as threats evolve.
- Lead automation initiatives that improve the efficiency, reliability and consistency of IT services.
- Partner with the IT Security team to investigate, contain, eradicate and recover from security incidents.
- Lead or contribute technical expertise to projects, explaining complex issues clearly to technical and non-technical colleagues.

Open Doors is an international, interdenominational organization that supports Christians who are persecuted for their faith.

Open Doors International supports the worldwide organization with services such as Communications, Marketing, People & Culture, Advocacy, IT, Program Management, Finance and Global Research by working in a service-oriented way with teams and colleagues in countries with an Open Doors Development or Field office.

Our global IT team of 25 members, is allocated around the world and supports about 2,000 users worldwide and is comprised of the following teams: Service Delivery, Value Delivery, SW Development, and Infrastructure.

HERE IS WHAT YOU WILL BRING TO THE ROLE

- A committed and practicing Christian, able to affirm the Open Doors Statement of Faith and our vision, mission and Core Values.
- A degree in IT or a related field, or equivalent relevant experience; Microsoft certifications are highly desirable.
- Substantial hands-on experience with Microsoft Azure, including networking, architecture, databases, application deployment and performance optimisation.
- Experience across Microsoft 365 technologies, together with advanced analytical, critical-thinking and problem-solving skills.
- A proactive, service-oriented and organised approach, with the resilience to work effectively under pressure and manage competing priorities.
- Excellent English communication and customer service skills, with the ability to build relationships across cultures and make complex technical concepts accessible.

Desirable: Relevant Microsoft certifications and experience with Sophos Central.

OUR OFFER TO YOU

Working at Open Doors means that you are actively involved in serving the worldwide Persecuted Church. We offer you a versatile position in an international environment, a professional team and the opportunity to show your added value. As a global organization we are used to combining working from home with working from the office and to have flexible working hours.

INTERESTED?

Please send your resume and a short motivation in English to Open Doors International via **vacancy@od.org** by 9th December 2026.

If you have questions about the position, please contact us via this email address. We will review applications on a rolling basis.
